I want this station to remain on the Verizon FIOS cable station channel three. Those filing a complaint is impeding fair competition by blocking this station. PMCM tv provides good television shows that any age can watch and parents do not have to worry about the viewing. It provides an alternative to the current television shows on other stations, including CBS and Ion. Less violence, less sex and less foul language. It allows people of all age ranges to enjoy watching television again. It should be up to the consumer to watch or not watch, not another television/cable company to decide.
