MeTV is very important to have in my neighborhood especially on Channel 3-10 because I am unable to afford paying Direct TV and any other channel because of my limited finances. It brings joy to my heart that I can watch this station. Shouldn't the American public have the option to have access to Free TV instead of having to pay a monthly subscription to receive those programs that other stations like CBS, etc. do not broadcast? I have a job that does not pay well and a family to support. It makes me feel warm inside that I can enjoy those programs of my youth. Please don't take that away from me.
