MeTv has unique programming which consists of no new shows which CBS and ION have new or very recent or from cable syndication. As far as the designation of channel CBS is channel 2 and no one cares its connecting channel is 33. As far as ION it is 31.1 through 31.6. I firmly believe that people know that shows like Cheers, Hogan's Heroes and the like are not recent shows or new shoes. MeTv has carved its own niche as another cable channel that has decided to have an over the air outlet as people cancel their cable. As a result I believe that WJLP should be allowed to remain on channel 3.10 .
