----- I do not want five people who were not elected to decide the future of common  
carrier wire communications used today but cloaked as [sic] "inter-net" in 1997 and  
called a "[holy] new medium for world-wide human communications" despite the fact  
these are nothing but the combination of ancient wire and old radio mediums. This  
new usage of two mediums has NEVER been safe enough to be allowed world-wide as once  
alleged in 1997 by a 77 year-old man who began studying law before nuclear weapons  
existed and who was an 84 year old culturally senile oligarch when GOOG did an IPO  
in 2004. carriage return

----- I do not want five appointees to decide that the leaves clouding their search  
for the forest ARE the forest and yet will still ask three old folks appointed as  
KINGS/QUEENS for life despite most citizens today refusing to consider public  
service good behavior beyond ages 68-70. carriage return

----- Most U.S. States and most free nations on Earth already require judges retire  
at ages 68-70. The United States is no longer a morally honorable nation subject to  
clear rules of law, jury legal decisions, or representative democracy. DANG!

----- I am too old and too disabled to leave the U.S. oligarchy for a country I  
morally respect in Europe. This gives me unbelievable thankfulness for the Pilgrims  
who left to build a more honorable and more free governmental system. carriage

born but Corporate America quietly overthrew the United States. carriage return
