

Comment in Support of PMCM-TV

I am writing in support of the continuation of PMCM-TV to operate their TV station from Middletown, New Jersey. I live in northeast Pennsylvania and I receive their signal through my cable provider, Blue Ridge Communications.

Although I have access to some 250 channels, I continually find myself spending a good portion of my TV viewing time with PMCM-TV's WeTV on channel 3. I find their programming to be a relief from the constant barrage of reality programs or viewing marathons of a particular series. PMCM offers clean family oriented programming.

Although PMCM-TV has been only operating a few weeks in my area, several of my neighbors have commented on their excellent programming and their entertainment value. It would be a disservice to the viewing public to not continue this station's authority to broadcast.
