**Subject:** RE: Diversified's Petition for Reconsideration in Docket 00-39

Holly,

I think that uploading this email chain into ECFS is good. Please accept this as our consent to do so to withdraw the petition.

Thanks,  
Michelle

Thank you Michelle! There are two options. You can either upload a letter into the docket indicated that the station wishes to withdraw its petition. Or, if you prefer, I can simply upload this email chain into ECFS. Either mechanism is sufficient for our purposes.

Thanks,  
Holly

Hi Holly,

My client has instructed me to withdraw the petition on their behalf. How would you like us to proceed?

Thanks,  
Michelle

Hi Michelle-

We are doing some housekeeping here in the Bureau, trying to close out some items that may no longer be of interest to the filing parties. As such, we are wondering if your client is still interested in pursuing the attached Petition for Reconsideration from Docket No. 00-39 -- Review of the Commission's Rules and Policies Affecting the Conversion To Digital Television.

Given the passage of time, we thought it possible that your client may no longer wish to pursue this petition. If that is the case, we would ask that your client consider withdrawing the petition, so that we can concentrate our limited resources on other matters. I can provide information on how best to do that. If you instead determine that the petition still deserves attention, let me know, and we will move forward as resources permit.

Happy to discuss if you have any questions.

Thanks,  
Holly
