We must to have the internet with the same speed to all users; do not divide the net into fast and slow lanes. Comcast and Verizon try to rig the internet into fast and slow lanes, and this division must not happen at all, even in million years. USA has been falling behind other nations in health care (we should have Medicare to all regardless of age, what state one lives in, and disability status), living wage (we should have \$15.00 per hour federal minimum wage tied to Cost Of Living Adjustment as soon as possible), people in private prisons (U.S.A. has the largest % of its population in private prisons in the world), well paying jobs (Bill Clinton signed NAFTA, which moved millions of well paying union manufacturing jobs to Mexico and Asia. Barack Obama and Congress try to fast track TIPP and TPP, which is going to move even more U.S. jobs to other counties, and this crazy. NAFTA must be regressed to time before Clinton signed it into law. TIPP and TPP must not be signed into any law.) Citizens United is a poison pill for U.S. civil and voting rights, and our weak economy. Citizens United must overturned very soon. Do not divide the internet into fast and slow lanes, please. Do not make the U.S. into even poorer third world nation by dividing the net into slow and fast lanes.
