I've recently moved from Dallas, TX to New York. I was unhappy to discover that MeTV was not available here as it is in Dallas, over the air, with antenna only. Here, only those people who paid for cable could get MeTV, until recently when MeTV came to channel 3.10. I love the old shows that MeTV airs, so I was absolutely thrilled! The signal from this channel is strong and comes in clearly with my antenna. But now it seems that TV "politics" has taken my MeTV away. I am extremely disappointed that the "powers that be" are causing so many problems. Is this some kind of conspiracy to force viewers to buy cable? To force them have yet another monthly bill?

I do not have cable. I do not plan to get cable anytime soon. I hope I will be able to continue enjoying MeTV's programming.

Please do not leave NYC without easy access to MeTV.

Thank-you,

Aneci a Ross
