

October 22, 2014

Ryan Yates,
Telecommunications Access Policy Division,
Federal Communications Commission,
445 12th St SW,
Washington, DC 20554

Dear Mr. Yates,

Attached is our response to the challenge from Centurytel in regards to the following census blocks:

550959601001056	550959606001009	550959606002078
550959601001063	550959606001023	550959607002001
550959601001065	550959606001027	550959607004000
550959601002152	550959606001028	550959607004018
550959602001020	550959606001033	550959607004020
550959603003074	550959606001034	550959607004023
550959603003095	550959606001078	550959607004065
550959606001003	550959606002072	550959607004066

Centurytel has challenged the above census blocks questioning voice services. Lakeland Communications does provide service, Voice, and Broadband to yellow highlighted Census Blocks and can provide services to the green highlighted blocks. There are only 3 blocks where we do not plan to provide service. As Plant Manager for Lakeland Communications I certify that Lakeland does provide or can provide services to the above highlighted areas. Attached is the FCC 505 report with customer addresses that fall into the above census blocks. If more information is needed please let us know.

Sincerely,

Todd Roehm
Plant Manager
