**Re: Special Access for Price Cap Local Exchange Carriers, WC Docket No. 05-25; and
AT&T Corporation Petition for Rulemaking to Reform Regulation of Incumbent
Local Exchange Carrier Rates for Interstate Special Access Services, RM-10593**

Dear Ms. Dortch:

On November 25, 2014, I spoke with Deena Shetler of the Wireline Competition Bureau concerning the Commission's December 15, 2014 deadline for the special access mandatory data collection.¹ Given that the Commission's data collection container is not fully available to those parties who must respond and the impending holiday schedule this week, I stated that it would be prudent for the Commission to grant a limited extension of time for the collection effort to ensure that parties will have sufficient time to respond fully once the data collection container becomes available. COMPTTEL continues to believe that the Commission's review of this proceeding should move expeditiously, and any such extension should reflect the Commission's commitment to completing its long-standing review of the special access marketplace as quickly as possible.

Please do not hesitate to contact me if you have any questions about this submission.

Respectfully submitted,

/s/ Angie Kronenberg
