

Secure encrypted links to searches (01-10) were used to generate the exhibits not entered due to being called indecent/obscene by anonymous pornography access addicts.

See <http://apps.fcc.gov/ecfs/document/view?id=7521749649>

Do not follow links 01-10 or links in Exhibit Z (#6) if a minor. These might return intentional organized criminal violations of 18 U.S.C. §1462 and 18 U.S.C. §1464 by GOOG and MSFT depending on "settings". Each will communicate naked images in the improperly unregulated wire and the radio mediums. The FCC was created in 1934 to make wire and radio communications SAFE for children to encounter without supervision or filters world-wide. The FCC is now an almost useless or harmful agency helping ensure pornography flows pervasively via wireless and via wires to ALL children in U.S. schools without first making sure these are safe per 47 U.S.C. §151. See Modernizing the E-rate Program for Schools and Libraries or FCC proceeding 13-184. https://apps.fcc.gov/edocs_public/attachmatch/DA-14-1657A1.pdf.

The (1-6) HTML and (1-6) PDFs URLs will become LIVE PDF links that may or may not be highlighted or underlined but will all work if clicked.

The legal disputations linked above from *Neeley v 5 Federal Communications Commissioners, et al.*, (5:14-cv-5135)(8:14-3447) and accessible by FREE FCC.gov ECFS should have as much impact on humanity as Rev. Martin Luther's "95 Thesis" had from 1517 protesting the same thing or unauthenticated access to indecency.

Clear communications laws are being violated TODAY by GOOG and MSFT and are ignored by the FCC and ignored by "American Courts" since the "American regime" overthrew the United States of America starting in 1928 and as was made permanent by *Citizens United* and *McCutcheon* rulings of "America's Honorable Ruling Oligarchy" that is too aged or too culturally obsolete to still be rulers for life in most of Europe and the rest of the "FREE WORLD" respecting the rule of laws the U.S. no longer follows.

ALL Complete URLs herein will be convert to live links and entered as PDFs by the FCC although the FCC ECFS "does not support links" in the PDFs created via "ECFS EXPRESS" and removes links from PDFs now when submitted.

NO "NEW MEDIUM" WILL EVER EXIST!

The "[holy] new medium" of *Reno v ACLU* was seamless integration of WIRE and the radio mediums. Without wire communications the "inter-net" is IMPOSSIBLE today because radios waves propagate predominantly line-of-sight and Earth IS STILL NOT FLAT!

ALL 12 point type entered as txt is colored and emboldened in this "Word 95" document but live "LINKS" are not inserted and will be left for the FCC to install by use of Acrobat.

The pages above should then have 26 live and active "links" in the PDF created and entered automatically by the FCC despite the ECFS "not supporting" and removing links from "filed" submitted PDFs that are not removed in the Eighth Circuit filings, though these links are perhaps ignored there as well. This will be submitted in EVERY WIRE proceeding at the FCC and might be ignored by everyone there as well as at the Eighth Circuit Court of Appeals as a Notice to the Court. These LINKS will be entered there as a letter to the court to perhaps also be ignored like "ECFS help" advised would be done by each Commissioner.

These links are entered by the Plaintiff/Appellant, Curtis J Neeley Jr., so EVERY JUDGE and every citizen on Earth might considers these wire and radio crimes and is begged to consider helping prevent these immoral links from returning to unauthenticated children. Many U.S. citizens and perhaps most Article III judges are addicted to chose or avoid unauthenticated access to pornography or "indulgences" in indecent communications even when labeled as unsuitable for anonymous children like done criminally by GOOG and MSFT in this case.

The Plaintiff/Appellant, Curtis J Neeley Jr., has only attempted herein to prevent a personal name from being fraudulently associated with past creations of original indecent visual "art-'speech" or immoral visual creations that were later retracted. This "speech" should be protected by communications privacy laws now being IGNORED by the very branch of United States' government responsible for appearing to protect justice while ignoring laws and clear FACTs herein.

Will be Perpetually Submitted,
/s/ Curtis J Neeley Jr.
