Comcast is among the most hated companies in America, and for good reason: their business practices are highly unethical, but they can get away with it because their "customers" are held captive by their monopoly. For example, I have had to file THREE Better Business Bureau complaints, as well as some FTC and FCC complaints about Comcast in the last few years, and only some of them have been resolved fairly and reasonably. This situation is intolerable; you should be breaking Comcast up, not allowing it to get bigger! (You should also be reforming the cable franchise agreement process to allow better competition.)
