Dear Sir or Madam:

Please accept this request for waiver specific to FCC Forms 471 995008 and 995568. The circumstances regarding these appeals are specific to the competitive process for referenced FCC Form 470 Application Number 903340001187474. The solicitation process recommendation was protested by competing service providers and currently awaiting appellate review under the authority of the State of Florida Division of Administrative Hearings. Applicant has made every effort to comply with program rules and could not make a timely application without a completed Form 470 process and executed contract. The contract for existing telecommunications service was extended outside of the filing window.

Applicant's internal School Board policies only allow for an expired term contract to be extended six (6) months to complete the competitive procurement or appeal processes. Form 471 Application Number 995008 received an approved contract on May 28, 2014. On October 1, 2014, the State of Florida Division of Administrative Hearings ruled on the case which was appealed. The timeline for the appellate process will extend beyond the 2014 Funding Year, hence, second six (6) months contract was executed on October 29, 2014 specific to Form 471 Application Number 995568.

Please do not hesitate to contact me should you require any documentation or further information.

Respectfully Submitted,

Tom Fitzgerald  
District Technology Coordinator
