5507-10 Nesconset Hwy, #201 • Mt Sinai, NY 11766

In the Matter of

Rules and Regulations Implementing the  
Telephone Consumer Protection Act of 1991

CG Docket No. 02-278

Establishing Just and Reasonable Rates for  
Local Exchange Carriers

WC Docket No. 07-135

Telephone Science Corporation (Nomorobo), supports The United States Telecom Association's (USTelecom) request for a 30-day extension of the comment deadline in the above mentioned proceedings. Nomorobo also respectfully requests that the Commission extend the comment deadline to January 23, 2015, and the reply comment deadline to February 9, 2015.

This extension will provide us with enough time to analyze our data and provide better answers to the questions posed by the Commission. In 2014, over 50 million calls have been screened by Nomorobo and over 12.7 million robocalls have been intercepted. Studying this amount of data is not a trivial matter.

In addition, we are asking Nomorobo users to provide us with their feedback to bring to the Commission. However, getting accurate and timely responses during this holiday season has been problematic.

For these reasons, Nomorobo supports the request for the Commission to extend the comment deadline from December 24, 2014 to January 23, 2015, and the reply comment deadline from January 8, 2015 to February 9, 2015.

Sincerely,

A handwritten signature in black ink, appearing to read "Aaron Foss", written in a cursive style.

Aaron Foss

President, Telephone Science Corp
