(A) Companies listed in the Non-Filing Co column did not file because the company does not fit the criteria requiring that company to file under either the streamlined or comprehensive data filing. These companies are typically either inactive or intermediate-level holding companies that do not directly provide service to end users.

In addition, in an excess of caution, due to a shareholder who might be considered to have more than 10% ownership in both the LICT Corporation and the following companies, it is possible the FCC could construe the following list of the FRNs to also be affiliated with LICT CORPORATION; therefore, they are being included on this notification:

2	Inter-Community Telephone Company, LLC	0003740610		X
