

60001009929.txt

Dear FCC,

I urge you to IGNORE the copy-pasted anti-net neutrality messages you have been bombarded with. Those messages are created by computers, not the real people you are sworn to serve. The shadowy group has ties to the Koch brothers, the same people who for years funded groups spreading lies about the dangers of secondhand smoke on children and still funds groups spreading lies about climate change. If you listen to them, you're basically listening to people who want children to die of lung cancer and want Florida to be underwater before I turn 50.

Listen to the real people, not the Koch brothers.

-Jess
