RE: WC Docket No. 10-90

Meriwether Lewis Electric Cooperative appreciates the opportunity to bid on the Rural Broadband Experiments for our service territory.

Upon further evaluation of our selected bid project in Category Two, we have decided to withdraw. This was a difficult decision and based on the additional MLEC investment it would require to meet a very limited number of homes.

Again, thank you for this opportunity. We plan to stay informed about upcoming opportunities such as the CAF Phase II.

Sincerely,

A handwritten signature in black ink that reads 'Vanessa Clayborn'.
