Dear Ms. Dortch:

On October 6, 2014 vendor documentation was supplied, but invoice did not include cost allocation data as data is only listed on invoices for certain months. Unfortunately additional bills could not be obtained as Business Manager was on medical leave due to kidney transplant surgery. Enclosed is documentation itemizing ineligible charges. Please accept this documentation due to these extenuating circumstances.

A reversal of the denial of this funding request or reconsideration is sought. I believe that the intent of the program is to make sure all eligible schools and libraries receive phone, internet access and internal networking equipment maintenance services as well as internal networking equipment. This school should not be penalized due to any procedural inconsistencies or delays in providing requested information which was beyond their control. I sincerely hope that this material will be reviewed and the application reviewed on the information previously provided.

Thank you,
Katherine M. Weiss
