Re: **Notice of *Ex Parte* Communication Supplement**
MB Docket No. 14-57 (*Applications of Comcast Corp., Time Warner Cable Inc., Charter Communications, Inc., and SpinCo for Consent to Assign or Transfer Control of License and Authorizations*)

Dear Ms. Dortch:

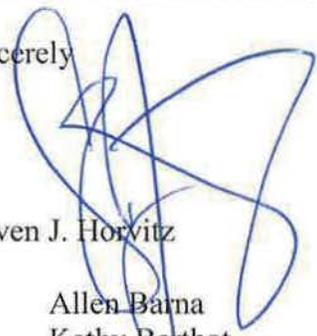

This letter is submitted pursuant to a request received from FCC staff regarding the *Ex Parte* Notification filed on December 18, 2014, summarizing an oral presentation made by Steven Miron, Chief Executive Officer, Bright House Networks, LLC (“BHN”), on December 16, 2014, to the Commission staff members copied below. Pursuant to that request, this letter clarifies the discussion of BHN’s reliance on Time Warner Cable (“TWC”) to supply external connections that are critical to BHN’s successful provision of Internet service.

The original *Ex Parte* Notification explained that, pursuant to a Services Agreement with TWC, BHN has *access* to certain TWC resources including “TWC’s national Internet backbone (and associated interconnection and peering arrangements).” In fact, BHN historically has relied upon TWC to provide Internet connections beyond BHN’s local systems, and all external transit and peering arrangements for BHN are currently handled by TWC. When TWC negotiates such arrangements with third parties, the agreement typically covers Internet traffic intended for both TWC and BHN, with BHN’s ASN and Internet addresses (along with TWC’s) specified for this purpose.

Ms. Marlene H. Dortch, Secretary

Consistent with that Services Agreement, BHN has sole day-to-day responsibility for network management and operations and end-user services.

Sincerely

Steven J. Horvitz
