Dear Secretary Marlene H. Dortch,

I would like to request that the FCC grant the pending applications for new LPTV stations that have been withheld from being granted. The Spectrum Act specifies that "Nothing in this subsection shall be construed to alter the spectrum usage rights of low power television stations." Therefore, there should be no apparent reason why these applications should be treated differently.

One Ministries, Inc. applied for the following LPTV stations, and they have already been put on proposed grant lists but have never been granted:

Nampa, ID Channel 6 BNPDVL-20090825BZD Facility ID 182907
Healdsburg, CA Channel 6 BNPDVL-20090825CBK Facility ID 182954
Ceres, CA Channel 6 BNPDVL-20090825BYV Facility ID 182896

It seems unfair to not grant construction permits for these stations, since the Commission accepted the filing fees many years ago and has already listed them on proposed grant lists.

Sincerely,
Keith Leitch
President, One Ministries, Inc.
