Re: Case Identifier: CGB-CC-1252; Docket No. 06-181; Petition for Exemption from the Closed Captioning Rules; Letter dtd 30 May 2014; Request for Supplemental Information

Dear Ms. Gardner:

Thank you your email response allowing Springfield Community Church to provide supplemental information for our request of exemption for our closed-captioning request currently being processed. We are pleased to provide the following information which hopefully will provide sufficient response to your inquiry.

In an effort to generate additional sponsorship and revenue, and as instructed by your agency previously, Springfield Community Church added a sponsorship narrative to our weekly Church bulletin for soliciting additional potential sponsors for our Church's weekly broadcast. This narrative identified specifically our need for revenue to satisfy our increased costs for closed-captioning currently being provided by our local WJHG Channel 7's Closed Captioning service provider. We ran this advertisement concurrent for several weeks without any success of additional sponsorship or revenue. We are currently in a financial hardship status with continuing to pay for this service for our weekly broadcast. We are in a position of having to reallocate funds from other aspects of our Church's budget to pay these additional costs and not sure how long we will be able to continue funding for this increased cost. Without having adequate sponsorship funds, the Church is currently bearing almost the entire costs for the broadcast alone, even without factoring in the additional costs for the closed-captioning. We respectfully request you review this request and validate our previously submitted request for exemption to the closed-captioning requirement due to financial hardship.

Affidavit of Truthfulness and Accuracy:

I have provided the information provided in this supplemental submission to the best of my ability and information known concerning the information provided by those providing the information. I declare
