We need to keep open Internet
we also need to stop Comcast
from charging us people more
money for Internet speeds were
not getting..What about the
television programming we pay
to Comcast for channels we don't use
now it's time for us as Comcast
customers to choose what channels
we can keep on Cable television
I live in Pennsylvania i am English
speaking why should i have to pay
for channels on television that are
non-English speaking television
channels etc.
