This country is being placed into the same position as the people of Germany under the rule of Hitler. The stripping of our freedoms will no longer be tolerated. The upcoming civil war in the U.S.A. will focus on the excessive greedy corporations and corrupt government agencies. Even the members of the military will turn their backs on the U.S. government, because they too are victims in these ruthless acts. STOP your acts NOW! NET NEUTRALITY will only enslave the people further and our bondage is at a breaking point right now. I promise to stand up with my fellow patriotic American neighbors and fight this injustice. I will march, write, boycott, scream, disconnect, and fight with encouragement to others to relinquish any and all monies to any and all supporters of Net Neutrality.
