Re: Response of Time Warner Cable Inc. to the Commission's Information and Data Request, *Applications of AT&T, Inc. and DIRECTV for Consent to Assign or Transfer Control of Licenses and Authorizations*, MB Docket No. 14-90

REDACTED – FOR PUBLIC INSPECTION

Dear Ms. Dortch,

Time Warner Cable Inc. (“TWC”) hereby submits its response to the Commission’s information request letter, dated January 8, 2015 (the “Request”). Pursuant to the Second Amended Modified Joint Protective Order,¹ this redacted version of these narrative responses is submitted for public inspection. A Highly Confidential version of this filing is being submitted simultaneously under separate cover and will be made available for inspection pursuant to the terms of the Modified Protective Order. The [[]] symbols denote Confidential Information and the {{ }} symbols denote Highly Confidential Information.

The narrative answers and data submissions respond to the Request as clarified by previously disclosed discussions between representatives of TWC and Commission staff.² Based

¹ *Applications of AT&T, Inc. and DIRECTV for Consent to Assign or Transfer Control of Licenses and Authorizations*, Second Amended Modified Joint Protective Order, MB Docket No. 14-90, DA 14-1640 (rel. Nov. 12, 2014).

² *See*, Letter of Matthew A. Brill, Counsel for Time Warner Cable Inc., to Marlene H. Dortch, Secretary, FCC, MB Docket No. 14-57 (filed Sept. 9, 2014).

on these discussions, Commission staff and TWC agreed to certain modifications and understandings of the Requests and accompanying Instructions, subject to the Commission's ability to request additional information as it may deem necessary. These modifications and understandings are reflected in the pertinent responses and include the following:

- Request 1 has been modified to reflect that TWC has provided information for its systems in Hawaii in a separate dataset;
- Request 1(k) has been modified to reflect that TWC has provided aggregate costs for customer acquisition rather than per-subscriber costs;
- Requests 1(l), (m) and (n) have been modified to reflect that TWC has provided costs on an operating unit level and not by zip code;
- Request 1(o) has been clarified to include only those costs that TWC records as variable costs per subscriber;

TWC has made diligent efforts to ensure that none of the documents it is submitting herewith are privileged under the attorney-client privilege or attorney work product doctrine. To the extent that any privileged documents may have been inadvertently produced, such production does not constitute a waiver of any applicable privilege. TWC requests that any privileged documents inadvertently produced be returned to TWC as soon as such inadvertent production is discovered by any party, and reserves all rights to seek the return of any such documents.

Please contact the undersigned should you have any questions.

Respectfully submitted,

/s/ Matthew A. Brill

In the first tab on the spreadsheet (titled "2011"), TWC provides 2011 data by quarter, by zip code, and for average and total customer lifetime value ("CLV") under the Company's original CLV methodology. In the second tab (titled "2012-2014"), TWC provides 2012-2014 data by quarter, by zip code, and for average and total CLV under the Company's revised CLV methodology. In addition, TWC provides a PowerPoint presentation explaining both CLV methodologies and, in the last two pages, describing the differences between the two (note that the PowerPoint refers to the original methodology as the "legacy solution" and the revised methodology as the "new solution").

SPECIFICATION 2:

For each channel of video programming that the Company obtained from another person, and for each channel of video programming produced by the Company, separately for each month from January 1, 2012 to the present, state:

- (a) the name of each channel of video programming the Company obtained or produced;**

See Exhibit 2-2. Exhibit 2-2 responds for each channel of video programming produced by the Company.

SPECIFICATION 3:

Provide the Company's data as specified in the "Plan Data" table of Attachment A, which seeks data relating to subscriber and plan data.

See Exhibit 3-1.

Due to the extremely large number of service plans that TWC maintains for customers receiving service pursuant to legacy promotions, TWC has categorized all customers into the approximately 200 possible service combinations offered by the Company. TWC does not maintain records of the number of video channels by zip code, and thus is unable to provide this information (identified as column F in the Plan Data template provided by the Commission). In addition, in response to the Commission's request for the acquisition cost in column AJ, TWC has provided a nationwide subscriber acquisition cost finance metric that is calculated on a quarterly basis.
