I support real net-neutrality--not the fake net-neutrality garbage proposed by Sen. Thune and Rep. Upton. Mr. Chairman, Do the job you were appointed to do. Prevent monopolies. Protect the American consumer. Regulate these money-hungry, power-grabbing monopolies. It is unfair for Time/Warner, Verizon, At&T and Comcast dictate two levels of internet performance based on wealth. Mr. Chairman, Uphold the principles of the democratic republic we are still supposed to have. Out with the power-hungry money worshippers! Keep our internet truly neutral!
