Re: *Ex Parte Presentation in CenturyLink's Petition for Forbearance Pursuant to 47 U.S.C. § 160(c) from Dominant Carrier and Computer Inquiry Tariffing Requirements on Enterprise Broadband Services and CenturyLink's Alternative Petition for Interim Waiver of Dominant Carrier Regulation and Computer Inquiry Tariffing Requirements Imposed on Enterprise Broadband Services (WC Docket No. 14-9)*

Dear Ms. Dortch:

Melissa Newman of CenturyLink and the undersigned of Wilkinson Barker Knauer, LLP met with Travis Litman, Legal Advisor to Commissioner Rosenworcel, on January 30, 2015 to discuss the above-referenced matters.

During the meeting, we reiterated CenturyLink's positions set forth in the record. We explained the difficulties CenturyLink encounters as a result of the current regulatory framework, under which CenturyLink faces tariffing and network-sharing obligations with regard to enterprise broadband services that have never applied to non-incumbents and from which other larger and smaller incumbents have received forbearance relief. This disparity places CenturyLink in an extremely difficult position as it seeks to win and retain enterprise customers requiring service to multiple premises.

We explained that well settled precedent prohibits inequitable distinctions of this type and warrants forbearance, under the same legal standard that has applied to all prior applicants seeking the same relief, from application of the relevant rules to permit CenturyLink to operate on the same terms as its competitors. We emphasized that Commission resolution of this matter need not prejudice any issues pending before the Commission in industry-wide rulemakings and

reiterated that the company seeks here only to be subjected to the same framework that governs other providers of enterprise broadband services.

Respectfully submitted,
