Re: Expanding Access to Broadband and Encouraging Innovation through Establishment of an Air-Ground Mobile Broadband Secondary Service for Passengers Aboard Aircraft in the 14.0-14.5 GHz Band; GN Docket No. 13-114, RM-11640

Dear Ms. Dortch:

On February 2, 2015, Dean Brenner and the undersigned from QUALCOMM Incorporated (“Qualcomm”) discussed the above-referenced proceeding with Louis Peraertz, legal advisor to Commissioner Mignon Clyburn.

Qualcomm explained the benefits that the new air-ground service would provide to air travelers across the U.S., providing an in-flight mobile broadband user experience that is equivalent to what is available on the ground today. Qualcomm encouraged the Commission to issue a Report and Order establishing the Next Generation Air-Ground service in the 14.0-14.5 GHz band as soon as possible.

Respectfully submitted,

John W. Kuzin

John W. Kuzin
Senior Director, Government Affairs – Regulatory
