Dear Fcc,

We do not want any change to the programming standard.. We want to keep family friendly broadcasts..

We don't need any porn or profanity and I find it rather offensive that you would think to allow such garbage on the airwaves... If you are mentally insane you should go join a mental ward, and not try to change the standards of our programming.. The fact that you would sink so low to reduce your positions as a federal regulations agency to be a broadcasting hub of a sick mentally deranged special interest group would be a tragic change to your career... It is beneath your pay capacity to stoop to serving some rich over paid bunch of perverts who ever they may be.. I suppose if you give the government anything they will eventually stoop to destroying any dignity that they might have... You should never become the thing that you would ban... To the Idiot who thought is was a good idea to change the FCC policy and send to the gutter, you should be fired in disgrace for even thinking to lower the department to such a low state..

It would be like a police officer who suddenly decided to be a cold-blooded murderer because the cop salary didn't have the right smell to it... LEAVE THE FCC STANDARDS ALONE!! KEEP YOUR DIGNITY and YOUR SENSE OF SELF RESPECT for your jobs!!! Gay porn promos are not needed for an federal facility such as you..

Signed Greg Fowble
