I believe that it is of utmost importance that Americans have access to the internet through a net neutrality policy. Allowing further charges for multiple level services places an undue burden of cost and diminishes our capability as a small businesses to compete in an already highly regulated and restricted business arena. By placing further pricing barriers for Americans including our schools and homes you would be moving us toward a less competitive workforce where we are already showing signs of a struggle. Please for the sake of American prosperity and basic rights keep the net neutral
