If you like the internet then you can keep your internet - Who am I kidding? We have heard this sort of lie before. However, this time our voice is going to be regulated. Net Neutrality is NOT about cost or access. It is about controlling content and our VOICE will be SILENCED. It will not be overnight, but over time more and more tape will be placed over our mouths and before we know it, we will be silenced and our opinions further marginalized. The internet is not broken. It does not need to be fixed. It is working just fine and anyone and everyone who wants access to it can already have access to it. It is way for any of us to have a voice and an audience to listen to it that we can already afford now. Your regulations will take this from us. VOTE NO ON NET NEUTRALITY - There is nothing neutral about it let alone beneficial - Please do not silence us and do not take away my voice by burdensome regulations
