

60001033791.txt

Hello FCC,

The idea that our main source of communication, information, and source of entertainment is going to be oppressed by major corporations that do not believe in fairness is a horrible, repulsive happening. If this is to occur, it would cause devastation in both our ability to achieve academic goals, and also the ability to communicate and progress positive change in our culture. Please, please support net neutrality.

Thank you.
