RE: FCC Form 477 and the Special Access Data Collection - Request for Waiver of
Deadline for Data Submission – Docket 05-25

SELCO, a municipal cable operator, hereby requests a limited waiver of the February 27, 2015 filing deadline for the Commission's data collection in the above-captioned caused by circumstances beyond its control. Under 47 C.F.R. 1.3, SELCO seeks temporary relief in the form of a three week extension of time in order to complete its data submission by March 16, 2015.

BACKGROUND

SELCO is a small municipal cable operator providing video, internet, and VoIP services to a fixed territory serving approximately 11,000 customers. SELCO has a very small staff.

Scott Dorsey, a Network Specialist working at SELCO's headend, was assigned the task of filing the necessary information needed for the Commission's report. He has been working on it for the last several months and was anticipating filing the report today in order to meet the deadline. On Tuesday, February 17, 2015, he received notice that his father-in-law passed away and he immediately got on a plane to the Philippines with his family. He is expected to return to the United States during the second week of March. Given our limited staff and the immediacy of Mr. Dorsey's personal emergency, I am requesting a waiver from the filing deadline.

SELCO has been in contact with Christopher Koves, an FCC Attorney-Advisory regarding this matter. He has been very helpful in guiding our organization through the process. We are still unsure whether we need to file the Streamlined Certification or the Full Filing.

The additional time requested to file the proper form will be much appreciated.

Very truly yours,

Michael Hale
General Manager
