

60001036134.txt

This is such an atrocity I'm at a loss for words. This is no different than censoring a newspaper or sending people with picket signs home. The internet is full of greatness and the most useful tool in existence. I couldn't even function without it. of course you will also find hate speech, lies, and nonsense, it that's what makes a free and open Internet great. This is an outrage and I hope this is turned over quickly.
