

Talk Smart USA, Inc.

STATEMENT OF POLICY REGARDING CUSTOMER PROPRIETARY NETWORK INFORMATION

Set forth below is a statement summarizing the policies and procedures of Talk Smart USA, Inc. ("Talk Smart USA") which ensure adequate compliance with the Federal Communications Commission's ("FCC") CPNI regulations. See 47 C.F.R. § 64.2001 et seq. Talk Smart USA provides telecommunications services exclusively as a private service provider and wholesale supplier to the prepaid calling services industry.

As a wholesale prepaid services provider, the company does not have access to CPNI. Prepaid services customers do not "subscribe" to the services of Talk Smart USA in the same manner as customers of non-prepaid service providers; rather, these customers decide for themselves if they will use the company's services. These customers do not receive bills from Talk Smart USA. Talk Smart USA does not have information concerning the quantity, technical configuration, type, destination, location, or amount of use of telecommunications services which can be associated with any individual customer. Indeed, because the company's prepaid services may lawfully be utilized by any authorized user of the purchased services, Talk Smart USA has no means of identifying the particular individual which has placed any particular call.

Nevertheless, Talk Smart USA has adopted a confidentiality policy that addresses proper handling, use and storage of CPNI and, furthermore, the company has informed its employees of the company's CPNI compliance policy. Talk Smart USA does not release or distribute CPNI to unauthorized individuals; neither does Talk Smart USA use CPNI in violation of § 64.200 § et seq. of the FCC's Rules.

To the extent Call Detail Records ("CDRs") exist, they are not associated with any individually identifiable customer and do not constitute CPNI. To the extent that such CDR information exists in paper, removable magnetic or optical form, it is maintained by Talk Smart USA in a secure location which is not accessible by employees of Talk Smart USA without going through the company's established security procedures. When such information is maintained on a computer, the computer and/or the individual file is password protected.

As noted above, Talk Smart USA does not maintain CPNI in any manner which would give rise to the unauthorized disclosure of confidential information. Even in cases dealing with the limited information which is necessary to facilitate customer purchases of prepaid telecommunications services, Talk Smart USA takes steps prior to providing any requested information to assure itself that the individual making the request is authorized to obtain it.

Moreover, any call detail information obtained by Talk Smart USA is not made available to end-user customers or third parties over the telephone, online, or in retail stores. However, such information may be disclosed: (a) in response to a proper subpoena, court order or other judicial process; or (b) to the transmitting or receiving carriers for billing-relating purposes. In the event of unauthorized CPNI access, Talk Smart USA will notify the requisite law enforcement agencies, and the customer when possible.

Talk Smart USA did not have any breach of its call detail records during the past year, nor has the company received any customer complaints in the past year concerning the unauthorized release of or access to CPNI. Because Talk Smart USA does not have any presubscribed customers, and does not know the identity of end-users whose traffic is routed through Talk Smart USA, it cannot notify those end-user customers directly if a breach occurs. However, Talk Smart USA has processes and procedures in place to maintain records of any security breaches and to notify affected carriers and law enforcement of such

breaches. Finally, the company has no information, other than publicly reported information regarding the processes that pretexters or data brokers are using to attempt to access CPNI.
