Re **CC Docket No. 02-6**
Petition for Waiver
FCC Form 471 No. 815306
Applicant: Del Norte County Office of Education, BEN 144515

Dear Ms. Dortch,

With this letter Del Norte County Office of Education ("Del Norte") requests a waiver of the FCC Form 471 filing window deadline for Funding Year 2011 under the schools and libraries universal service support mechanism (E-Rate). Although the Form 471 was filed within the application window, the Item 21 Attachments were either filed late or not yet filed. If the Fund Administrator does not currently have a copy of the Item 21 Attachments or if the Commission wishes to see copies, Del Norte is very pleased to provide this documentation now.

Background

Del Norte is a place where community of educators provides about 600 students with the knowledge, skills, inspiration, and confidence to succeed in college, career, and community.

We do our best to comply with the rules of the E-Rate program, but in this case we may have fallen short on filing our Item 21 Attachments on a timely basis.

Analysis

Del Norte filed its FCC Form 471 within the filing window; the only issue is whether the Commission's rules should be waived with respect to the timeliness of the Item 21 Attachment filing.

Ms. Marlene H. Dortch

Page 2 of 2

In *Anderson Elementary School*¹, the Wireline Competitions Bureau (“Bureau”) found that when a funding application is submitted on time but for the required certification or the Item 21 Attachments, to the extent necessary the filing window requirement should be waived. This precedent has been maintained in several subsequent Commission Orders, and we have found not even one case where a petitioner in this situation was denied the requested waiver.

We also note that although a rule change² will take effect on March 6 which will set a time limit on when waiver petitions can be submitted, that amendment is not yet in effect.

Finally, we note that denial of our funding request would impose severe hardship upon Del Norte, and the effect of such denial would be a profound adverse impact upon the educational services we provide for our students. The consequences of a denial of funding would not further the purposes of section 254(h) of the Telecommunications Act of 1996 or serve the public interest.

Request for Waiver

For the reasons stated in this letter, Del Norte respectfully requests that the Federal Communications Commission grant a waiver of the FCC Form 471 filing window deadline for Del Norte’s Funding Year 2011 E-Rate funding application.

DEL NORTE COUNTY OFFICE OF EDUCATION

Chris York
Director of Technology
