The other r room I was undercover with FBI Obama never new, and secretly was killing people like I guess Donald young, Andrew Brightbart, his Obama's mother with EMF/RF and grand mother with EMF/RF and the FCC 24 he dispatch laughs while area 51 confirmed Obama involved in murdering me through several navel Intel missions look at my facebook, my Sprint phone records I'll volunteer, vs no public record, agent Budget and three other male agents all threaten my life just to take what's coming. FCC allows him every day even right here right now to broadcast frequencys specifically jamming Sprint all together I have audio spectral analyzer proof also on my Facebook page.
