*Re: Terrestrial Use of the 2473-2495 MHz Band for Low-Power Mobile Broadband Networks; Amendments to Rules for the Ancillary Terrestrial Component of Mobile Satellite Service Systems, IB Docket No. 13-213, RM-11685*

Dear Ms. Dortch,

On March 2, 2015 through March 10, 2015, Mark Poletti and Vivek Ganti of CableLabs as well as Paul Margie and Paul Caritj of Harris, Wiltshire & Grannis LLP, participated on behalf of the National Cable & Telecommunications Association (“NCTA”) in a demonstration of a potential TLPS implementation by GlobalStar. NCTA will file an analysis with the Commission in the coming weeks. NCTA estimates that it will be able to submit its report by April 17, 2015.

We look forward to assisting the Commission as it continues its review of GlobalStar’s petition.

Sincerely,  
  
Paul Margie  
Counsel for NCTA
