**Re: EX PARTE NOTICE;**  
***Terrestrial Use of the 2473-2495 MHz Band for Low-Power Mobile Broadband***  
***Networks -- IB Docket No. 13-213***

Dear Ms. Dortch:

This letter reports on the participation of Wi-Fi Alliance in the demonstration by Globalstar, Inc. (“Globalstar”) of its proposed Terrestrial Low Power Service (“TLPS”) at the FCC’s Technology Experience Center.

In particular, Greg Ennis, Wi-Fi Alliance’s Vice President of Technology, observed Globalstar set up its TLPS demonstration system on March 4, 2015. On March 6, 2015, the undersigned counsel for Wi-Fi Alliance attended the initial demonstration of TLPS and the operation of Bluetooth devices in the presence of TLPS.

Wi-Fi Alliance does not expect to submit an independent report of its observation of the TLPS demonstration. It anticipates cooperating with other parties that participated in the demonstrations and that are expected to submit reports.

Respectfully submitted,

*/s/ Russell H. Fox*
