20120928-00161, SES-MOD-20121001-00872**

Dear Ms. Dortch:

On March 25, 2015, the following individuals met with members of the Commission staff copied on this letter: Scott Burgett, Director, GNSS and Software Technology for Garmin International, Inc. ("Garmin"); the undersigned, outside counsel for Garmin; James Kirkland, General Counsel for Trimble Navigation Limited ("Trimble"); Russell H. Fox, outside counsel for Trimble; Mark Lewellen, Manager of Spectrum Advocacy for Deere & Company ("Deere"); and Catherine Wang, outside counsel for Deere. (Trimble, Garmin, and Deere are referred to herein as the "GPS Parties.")

The GPS Parties expressed their commitment to continuing a dialogue with the Commission with respect to the existing and potential uses of spectrum bands adjacent to the Radio Navigation Satellite Service spectrum that supports the Global Positioning System in the United States. In particular, we expressed our continuing interest in the Commission's evaluation of the various pending applications, revised proposals, and petitions filed by LightSquared Subsidiary LLC. We also discussed the use of other General Navigation Satellite Systems ("GNSS") to meet the Commission's E-911 accuracy requirements and for other applications and the Commission's rules and policies regarding reception of signals from those GNSS constellations.

Pursuant to Section 1.1206(b)(2) of the Commission's rules, an electronic copy of this letter is being filed for inclusion in the above-referenced dockets. Copies of this letter are being provided to all Commission employees who attended the meeting. Please direct any questions regarding this filing to the undersigned.

Very truly yours,

M. Anne Swanson
Counsel for Garmin International, Inc.
