

PLEASE DO NOT APPROVE THIS MERGER. I have been a customer of Comcast since 2008. They are the only cable provider in town apart from AT&T, another huge company. This merger would be one of the worst things ever for consumers. Comcast raises rates every minute, and have very, very confusing plans. It is frustrating to deal with them and many times I think of cancelling the services, but I need access to local news and internet so I tolerate them. **Please do not give in to the lobby pressure to approve this and do not believe what they say.**
