**Re: 911 Governance and Accountability, PS Docket No. 14-193 and
Improving 911 Reliability, PS Docket No. 13-75**

Dear Ms. Dortch:

On April 30, 2015, Robert Mayer and Anthony Jones of USTelecom, met with David Furth, Jeffrey Goldthorp, and Eric Schmidt of Public Safety Homeland Security Bureau. The subject of discussion was the 911 Governance and Accountability Policy Statement and NPRM.

USTelecom met with PSHSB staff to urge the Commission to task CSRIC V with aspects of this proceeding, as appropriate, to achieve the goals of the NPRM and maintaining a reliable end-to-end 911 system. We emphasized how federal advisory committees, federal state joint boards, and other similar mechanisms have served the Commission well in the past with addressing complex issues involving jurisdiction, governance, accountability, and reliability.

Pursuant to the Commission's rules, a copy of this notice is being filed electronically in the above-referenced dockets. Please do not hesitate to call me if you have questions.

Respectfully submitted,

/s/ Robert H. Mayer
Vice President, Industry and State Affairs
