***RE: Connect America Fund, WC Docket No. 10-90; Universal Service Contribution
Methodology, WC Docket No. 06-122***

Dear Ms. Dortch:

On May 4, 2015, Michael Gottdenker, Chairman and CEO of Hargray Communications Group, Inc. met with Ruth Milkman, Chief of Staff to Chairman Wheeler, to discuss issues pending in the above-cited proceedings relating to the reform of the FCC's system for providing support to high-cost, rate-of-return local exchange carriers. In the course of that discussion, Mr. Gottdenker discussed the problematic results for many carriers that were generated by the current version of the model designed by the FCC to calculate support amounts based on forward-looking costs. Mr. Gottdenker also stressed that Hargray's paramount concern in the proceeding is that the Commission adopt an equitable reform plan that provides the certainty that corporations require to make and maintain investments in critical broadband infrastructure.

If you have any questions, please contact the undersigned.

Respectfully submitted,

/s/ David Armistead
