I have filed Form 471 for Miraj Academy, Billed Entity Number 16082235, before the deadline that was posted on the USAC website. When viewing the status of my form it stated that it was complete, however just until April 25, 2015 it stated that it was incomplete. The reason of this being is beyond me. The certification of Form 471 for Miraj Academy was done by paper certification because I have not received the pin. The paper certification was sent out by mail, post marked and with a return receipt. There are many proofs that the form was done before the deadline, it's impossible for me to paper certify without reviewing application, then submitting it and then finally certifying the form. The mailed out envelope has a post marked date and a return receipt which is dated April 16, 2015. At the day of the mail out I have printed out a copy for myself for my records which has a printed out date on the top left corner of the page stating April 16, 2015. There aren't any other possible ways of showing proof that the form was done before the deadline. The reason for this is that I am asking for a waiver and that this deadline be extended. There has been some sort of issue and error which can't be fixed at the moment but perhaps in the near future it will be taken care of. I would like for you to waiver my deadline for form 471 and request an extension so that it can be submitted and certified before a deadline. Along with this request for a waiver is a copy of the first form that was submitted before the first deadline of April 17, 2015, and it is dated on the top left corner. The assigned case number that I was given was 22-767560. I do appreciate that you are taking this request into consideration.
