"My name is John Carter. I've been involved in college radio for nearly 25 years. I started out as a DJ at KSUB as an undergraduate and was a DJ and a member of the staff and governing board at KUCB and KVCU as a graduate student. I'm now the faculty advisor for soon-to-be LPFM KXSU in Seattle. Radio and music have been important parts of my life.

Please not to waive the disclosure agreement. Please do not legalize payola. Airwaves free of hidden commercial interests benefits everyone from the artists played on air, radio station staff programming the music, and most importantly the listeners.

Sincerely,

"
