RE: STELA Reauthorization Act of 2014

I reside in Laramie County, State of Wyoming.

My satellite carrier is DISH.

DISH does not include Wyoming PBS in my satellite service.

I am deprived of viewing a "local" station which features programming specific to Wyoming, and provides Wyoming emergency broadcasts signals.

My tax dollars support Wyoming PBS and, additionally, I donate funds to further support Wyoming PBS. However, the "local into local" rule prohibits me from viewing a Wyoming station which I financially support, in order to extend special favors to a select group of corporate entities. Such a result is contrary to the precepts the FCC is obligated to undertake on behalf of the viewing public. Thus, I respectfully request a rule change which will no longer prohibit satellite carriers from airing Wyoming PBS to Wyoming subscribers.
