The proposed merger will reduce competition, increase costs, and provide worse customer service. In my experience U-Verse bundles are more expensive than the separate contracts I have for phone service, TV, and internet connection. ATT customer service has been horrible, Directv customer service has been excellent. While promising to continue Directv service for 3 years, ATT has incentive to provide U-Verse bundles to eliminate Directv service. ATT will not offer U-Verse internet connection only at my location, so I am limited to 3 Mbps DSL by ATT. I do not want this merger to be approved.
