Re: *Notice of Ex Parte Presentation: Competitive Bidding Procedures for Broadcast Incentive Auction 1000, Including Auctions 1001 and 1002, AU Docket No. 14-252; Expanding the Economic and Innovation Opportunities of Spectrum Through Incentive Auctions, GN Docket No. 12-268; Special Access Rates for Price Cap Local Exchange Carriers, WC Docket 05-25*

Dear Ms. Dortch:

On May 19, 2015, Marcelo Claire, Sprint's President and Chief Executive Officer, and Vonya McCann, Sprint Senior Vice President of Government Affairs, met with FCC Chairman, Thomas Wheeler and FCC Wireless Bureau Chief, Roger Sherman, to discuss Sprint's business operations and future growth.

During the course of the meeting, Mr. Claire noted the critical need for access to reasonably priced special access circuits, including Ethernet, to increase capacity and expand coverage of mobile broadband services. Mr. Claire urged the Commission to act expeditiously on this docket. In addition, Mr. Claire discussed the importance of low-band spectrum to customer satisfaction and the need to ensure that competitive carriers have access to sufficient spectrum to deliver the services customers demand. He encouraged the FCC to adopt auction rules that would give competitive carriers a fair opportunity to compete for low-band spectrum and that can be deployed widely and without significant obstacles to effective use.
