Dr Mr Wheeler

I believe that I owe you an apology. After hearing your initial statements regarding net neutrality and hearing about your background as a cable lobbyist, I feared the worst. I doubted you. I didn't think that you had it in you to do what was right and protect the consumer. I was wrong.

I just want you to know how proud I am of you. Since the ruling to expand title II to the internet you have also made several comments that show your commitment to protecting what has become a vital piece of our infrastructure. I'm glad to see that you recognize the value of having a free and open internet and that a key component is to foster competition. thus leading to innovation. Thank you for protecting us, the consumer.

Yours truly,

Michael D Pass
