

I am writing to comment on the STELA Reauthorization Act of 2014 (STELAR).

Our satellite carrier who provides service for us is Direct TV.

I live in Niobrara County is Wyoming.

Wyoming PBS is not included in our satellite TV service.

I feel that as a taxpayer for Wyoming and Direct TV for over 15 years, we should have
Access to local Wyoming programs for weather and critical emergency broadcast signals
For the continued safety of all residents in Wyoming.

I believe that the “local into local” rule should change so that Direct TV includes Wyoming
PBS for all Wyoming viewers. HOMELAND SECURITY is one main reason for the need for local
PBS programming.

Thank you for your time and consideration.

Respectfully,

Connie Baker
