

Regarding the Stela Reauthorization Act of 2014:

I am a strong proponent to have Satellite Providers carry Wyoming PBS state wide. I do not have Satellite service at this time but would definitely consider re-installing if PBS was available. I've always found it baffling as to why access to this public forum is not universal and convenient. Please take this comment into consideration regarding the Stela Reauthorization Act of 2014.

Sincerely,

Tami Sorenson  
Big Horn, WY
